Experience

Globant Colombia   Bogotá, Colombia

Founded in Argentina in 2003, Globant is a digital studio that strives to innovate, discover and adapt technologies to exceed expectations.

Semi-Senior Java Developer   **September 2015 – current**

Java Back-end developer for Cars.com (Chicago), in charge of refactoring the payment module to meet PCI DSS (Payment Card Industry Data Security Standard) requirements, calling third-party web services, and using Spring MVC and RESTful API's to keep the channel between front and back ends.

Prodigious LATAM   **Bogotá, Colombia**

Part of the Publicis Group, Prodigious is digital advertising agency, that designs, produces, and delivers brand content across all channels.

Software Engineer   **February 2013 – August 2015**

AEM Backend developer for multiple projects, creating OSGi services and AEM components and helped on the creation of a hands-on basic training to introduce AEM concepts and functionality, and mentoring new members into this technology.

PayU Latam   **Bogotá, Colombia**

PayU is one of the biggest payment gateways, providing easy online payment services to e-commerces, including an anti-fraud module to keep online transactions safe.

Software Developer   **May 2010 – October 2012**

In charge of maintaining and improving the payment gateway, by developing new functionalities on Java and frameworks like Spring and Hibernate.
Diagnosed issues, fixed bugs, and created and optimized SQL queries to keep the transactions flowing smoothly.

OESIA Colombia   **Bogotá, Colombia**

IT consulting company based in Spain and Latin America that provides software solutions according to the client needs.

Software Analyst   **December 2008 – May 2010**

Main duties included developing a Web application to schedule and control services appointments for an energy company, involving technologies and frameworks like Java, Struts, Tiles, Hibernate, and Oracle 10g. And for a local financial organization, performing internal maintenance under the same technologies.
